

Attribute	What the App Does	Importance: Don José	Importance: Dra. Elena	Source
1. Easy to Learn	Uses a start screen and clear labels so users don't need a manual.	High: This is the most important rule for him.	Medium: She knows tech but likes it simple.	Nielsen (1993).
2. Fixing Mistakes	Shows a warning before you cancel and uses kind words to fix errors.	High: He is very afraid of making a big mistake.	Medium: She gets worried when the system fails.	ISO 9241-11.
3. Easy to See	Text supports very large fonts and colors that made easy to read.	Medium: Helps him see buttons clearly.	High: Very important for her tired eyes.	WCAG 2.1.
4. Quick Feedback	Uses loading signs so users know the app is working.	High: Stops him from worrying if the app is broken.	Medium: Confirms her actions are done.	ISO 25010.
5. Less Brain Work	Shows info slowly and only asks for 3 things at a time.	Medium: Helps him not feel confused.	High: Saves her time because she is very busy.	NASA-TLX.
